More Marriage Licenses Than Ever During 1911.

Cupid broke all records during 1911, in the issuance of marriage licenses in Harrisburg, a total of 1419 being issued as against 1405, the best previous year, 1910.

Just exactly what the increase was due to is not to be seen from a casual examination of the records, but there was an increasing number of licenses issued to people of American birth, whereas in some previous years increases were largely due to marriages among those of foreign birth, principally among those of Austro-Hungarian birth.

The figures for the past four years show these totals: 1908, 1215; 1909, 1281; 1910, 1405; 1911, 1419.

During the past year June was the best month with 145 licenses. The next best month was January with 137. The complete figures by months were as follows: January, 137; February, 116; March, 64; April 125; May 139; June 145; July 129; August 106; September 109; October 121; November 115; December 122; total, 1419.
